KDI School

Overview of Academic Rules and Regulations for the 2022 Academic Year

▪ Objective

KDI School of Public Policy and Management has revised its Academic Rules and Regulations for the 2022 calendar year. The following details are provided in order to help students avoid any difficulties in successfully completing their academic programs.

1. (Program Chair & Academic Advisor) Students will receive advice on general school life by the Program Chair and their academic advisor. Each administrative division will also help students adjust to life on campus.
- 2.. (Personal Information) Students should update their personal information through mis.kdischool.ac.kr to ensure they receive pertinent information from the school. If you want to change your name or your date of birth on the system, you should submit an application form to the registrar along with your passport.
3. (Notice) All academic information and forms can be downloaded from the official school website (www.kdischool.ac.kr). As the School is not responsible for informing each student of every notice, it is the students' responsibility to pay close attention to the Notice Board as well as the Student Message Board on the school website.
4. (Regulation Change) When occasion demands, the rules and regulations for the 2022 may substantively change upon the School Executive Committee's approval. Any changes to the rules and regulations will be notified.

Courses and Research Projects

Please refer to the following description for further categorization of courses. These names will be used throughout the year, and it is important for you remember these names to avoid any confusion.

Course Category	Remarks
1. Core Courses	Mandatory courses for each program
2. Concentration Courses	Courses in each concentration
3. Research Projects	Thesis, Capstone, SRP, ELP
4. Foundation Skill Courses	English, Korean language courses

KDI School offers three master's programs in English: **MPP** (Master of Public Policy), **MDP** (Master of Development Policy) and **MPM** (Master of Public Management), and one master's Program in Korean: MPPM (Master of Public Policy and Management)

Concentration of Master's Program (English)

MPP	- FM (Finance and Macroeconomic Policy)
	- TI (Trade and Industrial Policy)
	- PF (Public Finance and Social Policy)
	- RE (Regional Development and Environment Policy)
MDP	- SD (Sustainable Development)
	- ID (International Development)
	- IP (Intellectual Property and Innovation Policy)*
MPM	- PA (Public Administration and Leadership)
	- SM (Strategic Management)
	- GP (Global Governance and Political Economy)
Common	- DS (Data Science for Public Policy and Management)**

* IP concentration is only for the students who are admitted through MIPD admission process and will be awarded the MIPD degree. For more details, please refer to page 21.

** DS concentration is available to be declared only as the 2nd concentration. The 1st concentration should be from your major to graduate.

Once admitted into one of KDI School Master's programs, a student is not permitted to transfer to a different Master's program.

1. Core Courses

The number of core courses in each program is as follows: 2 core courses for MPP & MPM students, and 3 core courses for MDP students. These courses are provided only once a year and all students must take them in a given term unless special provisions have been made between the individual student and the Academic Affairs Division. A core course waiver test will be conducted online (Please refer to page 13).

2. Concentration Courses

Concentration courses consist of courses in one's own concentration as well as outside one's concentration. Concentration courses outside one's own concentration are NOT acknowledged as one's own concentration courses but only as electives toward the degree. For example, a student with a concentration in FM must complete the required number of FM concentration courses for the MPP program. Courses categorized under a different concentration, such as TI or PF, will be counted as electives toward the student's degree. Please refer to the "Concentration" column in the course list to identify what courses have been classified under which concentration. Please note that only one concentration will be recognized from one course.

3. Research Projects: Thesis, Capstone Project, Supervised Research Project[SRP], and Experiential Learning Project[ELP]

Formation of POS Committee

Students are required to form a Program of Study Committee (hereinafter referred to as "POS Committee") to guide them through their research project. The POS Committee members must be KDI School faculty. For students who write a thesis or a capstone project, the POS Committee must consist of two faculty members: one should be designated as the Major Professor (must be a tenure-track faculty) and the other the Second Professor. For students

who work on SRP or ELP, the POS Committee can be formed with one Major Professor (must be a tenure-track faculty).

Thesis: Students who wish to write a thesis must take the Advanced Research Seminar[ARS](3 credits), submit the first draft of their thesis in the seminar, and give an oral presentation to the POS committee. When a student submits the final thesis, it will be evaluated by 3 professors including the Committee members and will be graded on a pass/ no pass basis [P/NP] with 3 credits.

Capstone Project: Students who wish to do a capstone project individually or in a group must take the Advanced Research Seminar[ARS](3 credits), submit the first draft of the report in the seminar, and give an oral presentation to the POS committee. When a student submits the final report, it will be evaluated by 3 professors including the Committee members and will be graded on a pass/ no pass basis [P/NP] with 3 credits.

※ Students who wish to write a Thesis/Capstone Project are required to register their master's degree research project (RP) with a total of three libraries in accordance with the Korean Libraries Act: the National Library of Korea, National Assembly Library of the Republic of Korea, and KDI School Library. In addition, a student's Thesis/Capstone Project must be submitted in the form of a final version that has been thoroughly reviewed by the respective RP supervisor. Students may also submit three hard copies of the paper if desired. Please note that it is not possible for a student to refuse disclosure of his or her Thesis without KDI school's express permission. Meanwhile, a Capstone Project can be registered as private or limited disclosure, considering the need for security, as Capstone Projects involve information from certain institutions.

※ If students do not register their Thesis/Capstone Project, all certificates, including graduation certificates, can not be issued.

Supervised Research Project [SRP]: Students who wish to do a Supervised Research Project need to submit a project plan to his/her supervisor. When a student completes the final report of the project, it will be evaluated by his/her supervisor, and will be graded on a pass/ no pass basis [P/NP] with 3 credits.

Experiential Learning Project [ELP](GMP students only): GMP students may elect to write an Academic or Essay Experiential Learning Project (1 credit) or Advanced Experiential Learning Project (3 credits).

① English language courses:

The English language courses focus on reading, comprehension, public speaking, and academic writing. Students must complete at least 3 credits from the English language courses. Up to 6 credits earned for the English language course can count toward a student's graduation requirements.

The following English language courses are available:

A. Basic course: Language in Public Policy and Management (LPM)

This course is required for all students in Master's programs unless they have received a waiver. All students must take an online waiver test. If students receive a waiver, they are not allowed to take the course and must instead enroll in at least one advanced English language course.

* If a student does not take the online waiver test by the given deadline, the registration for LPM will be cancelled by the Academic Affairs Division.

B. Advanced courses

Credits earned for the English language courses can count toward the graduation requirement for up to 6 credits (LPM + one advanced English language course; and, if a student receives a waiver, two advanced English language courses).

• Academic Writing

The ‘Academic Writing’ course is offered every term and counts toward students’ graduation requirement credits. The course is intended to help students improve their skills in academic writing. It is strongly recommended that students take this course when writing their research project.

• Public Speech and Debate

The ‘Public Speech and Debate’ course is offered in the spring and the fall term and counts toward students’ graduation requirement credits. The main objective of the course is to help students become effective and persuasive public policy presenters in a variety of public settings.

② Korean language courses (for international students):

Full-time international students must complete at least 3 credits from the Korean language courses. Up to 3 credits earned for the Korean language courses can count toward a student’s graduation requirements.

The following Korean language courses are available:

A. Basic course: Korean Language and Culture I (KLC I)

With the exception of the NIIED scholarship group and students who receive a waiver for KLC I, all full-time international students are required to take this course. The waiver is determined on the basis of an interview with a professor of the Korean language courses. If students receive a waiver, they are not allowed to take this course and must instead enroll in one of the advanced Korean language courses recommended by the professor that conducted their interview.

Students from the NIIED scholarship group will automatically receive a waiver for KLC I. They are required to submit the application form for the waiver and all relevant documents to the Academic Affairs Division. They are also required to enroll in one of the two following courses: ‘Advanced Oral Communication and Composition in Korean’ or ‘Korean Proficiency through TV Drama and Movie’.

B. Advanced courses

Advanced Korean language courses generally do not count toward graduation requirement credits. However, students who receive a waiver for KLC I are required to take one advanced Korean language course, which will count toward their graduation requirement credits for up to 3 credits.

- **Korean Language and Culture II:** This course is offered every term.
- **Korean Language and Culture III:** This course is offered in the summer and the fall term.
- **Advanced Oral Communication and Composition in Korean:** This course is offered in the fall term.
- **Korean Proficiency through TV Drama and Movie:** This course is offered in the spring term.

5. Waiver Test

If students receive a waiver, they are not allowed to take that course. However, receiving a waiver does not mean that the students will receive 3 credits for the course. They are still required to take other advanced course(s) to earn 3 credits.

① Core course waiver test

Students can take the waiver test of their core course(s). The test is conducted online. If students receive a waiver, they are required to take other courses to fulfill their graduation requirements.

- A. Analysis of Market and Public Policy (MPP & MDP & MIPD Core)
- B. Quantitative Methods (All master's program core)

② **English language course (Language in Public Policy and Management) waiver test**

The English language course waiver test consists of three components: reading, listening and writing, and it is conducted online. Students who receive a waiver are instead required to take one advanced English language course.

③ **Korean language course (Korean Language and Culture I) waiver test**

International students who have studied Korean previously must apply for an interview with a professor of the Korean language courses to receive a waiver. Students who receive a waiver must submit the application form for the waiver and all relevant documents to the Academic Affairs Division. Even if they receive a waiver, they are still required to take one of the advanced Korean language courses recommended by the professor who conducted their interview.

Course Registration

1. Course Registration

① **Minimum/Maximum Credit Application:** Full time students can apply for a maximum of 15 credits of regular courses* including one day-time course in each term. Part time students can apply for a maximum of 9 credits each term.

**Regular course is a course counted towards graduation requirements(graduation credits).*

② **Consultation for Course Selection:** All students must consult with their advisors before selecting courses.

〈Program Chair〉

Program	Office	Program Chair
Ph.D.	S434	Rhee, Inbok
MPP	S340	Shadikhodjaev, Sherzod
MDP	S415	Lee, Changkeun
MPM	S445	Liu, Cheol

③ **Registration Period:** Students should register for courses during the designated period.

④ **Methods of Registration:** Students may only register for courses online. Please refer to the "How to Register for Courses" section for further information.

⑤ **Class Size:** KDI School limits the number of students in each class in order to maximize the quality of learning. For concentration courses, course capacity is set at a minimum of 6 students; for core courses, the number of students can exceed 30. Please remember that course registration is done on a first-come first-serve basis, and once a course is full, students will not be able to register online. If a course has less than 6 students, it will not be offered in that term.

***Note:** Due to the limit on course size, some students tend to register first and cancel later if they decide not to take the course. This kind of behavior takes away opportunities from those who are serious about taking the course and causes inconvenience not only to the students, but also the administration. We would like to ask students, therefore, to choose their courses carefully and make sure that they register for the appropriate number of credits for a given term.

⑥ **Registration Confirmation:** Once a student finishes the course registration, he/she needs to make sure that the registration has been completed, and confirm the courses before attending classes by checking the course confirmation menu in MIS.

⑦ **Add/Drop Period:** Registration changes are only allowed during the first week after classes begin. This is to ensure that classes run smoothly and students adapt to the environment as quickly as possible. After this period, students may not change their course registration. Please consult with the designated academic advisor or instructor for information and advice before making any changes. Attendance will count during the add/drop period.

⑧ **Course Drop (online):** Should a student decide to drop a course within the first three weeks after classes begin, he/she may fill out the course drop form, and submit it through MIS. In this case, the cancellation will not appear on the official transcript.

⑨ **Course Withdrawal (online):** Should a student decide to withdraw from a class after the first four weeks but within the first six weeks after classes begin, he/she may fill out the withdrawal form and submit it through MIS. In this case, a "W" will appear on the official transcript; however, it will not affect the GPA.

► **Two ways to check in for class on the Kiosk***

Grading

1. Acknowledgement of Credits

① **Registration:** Credits are only given from courses for which students have officially registered through the standard registration procedure. Students will not earn credits for audited courses.

② **Attendance:** All students must attend at least 5/6 of all classes in a given term to receive credits for that course.

2. Grading System & GPA

Students are graded according to the following system. "W" and "IW" are recorded on the transcript but are not counted towards the GPA.

Grade	A	A-	B+	B	B-	C+	C	C-	T	I	W	IW	F
Points	4.00	3.67	3.33	3.00	2.67	2.33	2.00	1.67	-	-	-	-	0.00

① **"I":** An "I" stands for "Incomplete" and is given to students who have not completed their course requirements by failing to submit assignments, reports, papers, and/or missed tests. It is up to the instructor to give an "I" to students who did not meet the requirements; however, students who received an "I" must be graded no later than four weeks after all grades are submitted to the Academic Affairs Division. The maximum grade that can be achieved is an A-. If grades are not received by the Academic Affairs Division on time, an "IW" will appear on the student's transcript permanently. Students who receive "I" grade will not be awarded scholarship for Academic Excellence.

② **"W":** A "W" stands for "Withdrawal" and is given to students who withdraw from a class(es) within the indicated period after the classes begin.

- ③ **"IW"**: An "IW" stands for “Incomplete Withdrawal”, and is given to students who failed to receive a grade within the four weeks after receiving an "I" grade.
- ④ **"T"**: A "T" stands for "Transfer" and indicates a course in which a student has successfully received KDI School credit for coursework completed through an exchange or GMP Program.

3. Transcripts

4. Academic Probation

- ① **Academic Probation**: Those students whose GPA falls below B- (2.67) shall be placed on academic probation. Once they are placed on an academic probation, all financial aids in the form of scholarships, living allowances, and tuition waivers, etc., will be terminated. Also, such students will no longer be eligible to apply for CA (Class Assistant) and AA (Administrative Assistant) positions.
- ② **Academic Expulsion**: If a student is placed on an academic probation for a second time, he/she will be expelled from the school and will not be considered for readmission.

Sejong City

KDI School is located in Sejong, Multifunctional Administrative City, located in the heart of the Republic of Korea near Daejeon, the fifth largest city. Sejong was conceived to relieve overcrowding in Seoul and promote balanced regional economic development. In addition to relocating the Republic of Korea's ministries and other executive offices from Seoul to Sejong, the Korean government designated Sejong as a center of research, education, and high-tech industry. Sejong is 74-minute away from Seoul and two hours away from other major cities.

Visa & Immigration

1. D-2 (Overseas Study) Visa

International students MUST have a STUDENT(D-2)VISA to attend the KDI School. Tourist visas and working visas cannot be used. However any visa that allows student to stay longer than 90 days is acceptable. (e.g. F-3, F-4, A-1, E-1~7, etc.). Korea Law requires that you obtain the appropriate visa in your own country. It is each student's responsibility to obtain a student (D-2) visa. This can be done at the nearest Korean consulate and embassy in your country. Please make sure to show *the Letter of Acceptance, the Certificate of Admission and the Certificate of Scholarship, issued by admission division of the KDI School, and you should not have difficulties in obtaining a student visa. Approval usually takes only a few days, but be aware that it may take up to a month in some cases.

Because of the possibility of delays, you are strongly encouraged to initiate the student (D-2) visa process promptly by starting the procedure as soon as you receive admission package. You do not need to be concerned if the student visa issued to you has a permitted period of stay that is shorter than your intended study period because a student visa can be extended in Korea. Please note, however, that if you withdraw from the program while you are in Korea, your student visa status would be immediately terminated, as it is contingent upon the KDI School's sponsorship. In addition, regardless of the expiration date on your visa, your student (D-2) visa will no longer be valid after 30 days from the date of academic completion or the expiration date wrote on the alien registration card back side. (please refer to your certificate of scholarship to check your academic completion date) and besides, KDI School does not provide a visa change process, support for you family visits and extend D-2 visa

□ *Definition of Sexual Violence under Current Korean Law*

In law, sexual violence generally refers to cases of rape or indecent act by compulsion (sexual actions accompanied by physical violence or threats). ☐ *Intimacy and Sexual Harassment*

- How do we distinguish the two?
 - To distinguish between sexual harassment and an expression of intimacy, you must first consider the feelings of the other party.
 - Sexual harassment is one-sided sexual speech or behavior that disregards an individual's sexual autonomy and should be seen as a violation of human rights.
 - When submission to, or rejection of, sexual conduct affects a person's employment, education, and participation in a school activity, the conduct is considered as sexual harassment.

☐ *How do you know when you have been given consent?*

- Sexual harassment is determined by the absence of consent.
It is harmful to apply subjective interpretations to non-verbal acts or silence and construe them as consent. The only way to be sure is to ask: "No" means "No."
- Standards for Consent
 1. YES means YES only when it is OK to say NO.
 - Consent must come from an individual's choice.
 - Consent obtained through coercion is not consent.
 2. A 'yes' said under a state of physical/mental impairment and other situations of impaired judgment is not true consent.
 - Actions or speech made when the other party is intoxicated or not fully conscious is not consent.

☐ ***How is sexual harassment determined?***

- Victim's Perspective

- The perspective of the victim is the most important standard to determine sexual harassment. Regardless of the perpetrator's intent, if the victim felt sexually shamed or offended, the act is considered as sexual harassment.

- Reasonable Person Standard

- Reasonable person standard is also critical in determining sexual harassment. Sexual harassment includes any conduct that would cause a reasonable person to suffer emotional distress.

☐ ***Wait! What should I do?***

In situations that feel like sexual harassment

- Clearly express your objection.

When it feels like an act has gone too far and sexual harassment has taken place, or when you have been subjected to unwanted sexual contact, voice your objection firmly and seriously.

- The recipient of the objection must stop and apologize.

The offender must take the objection seriously, immediately stop the act in question, and apologize for the offense caused.

- If it is hard to express your intention directly, make a pained expression or leave the place.

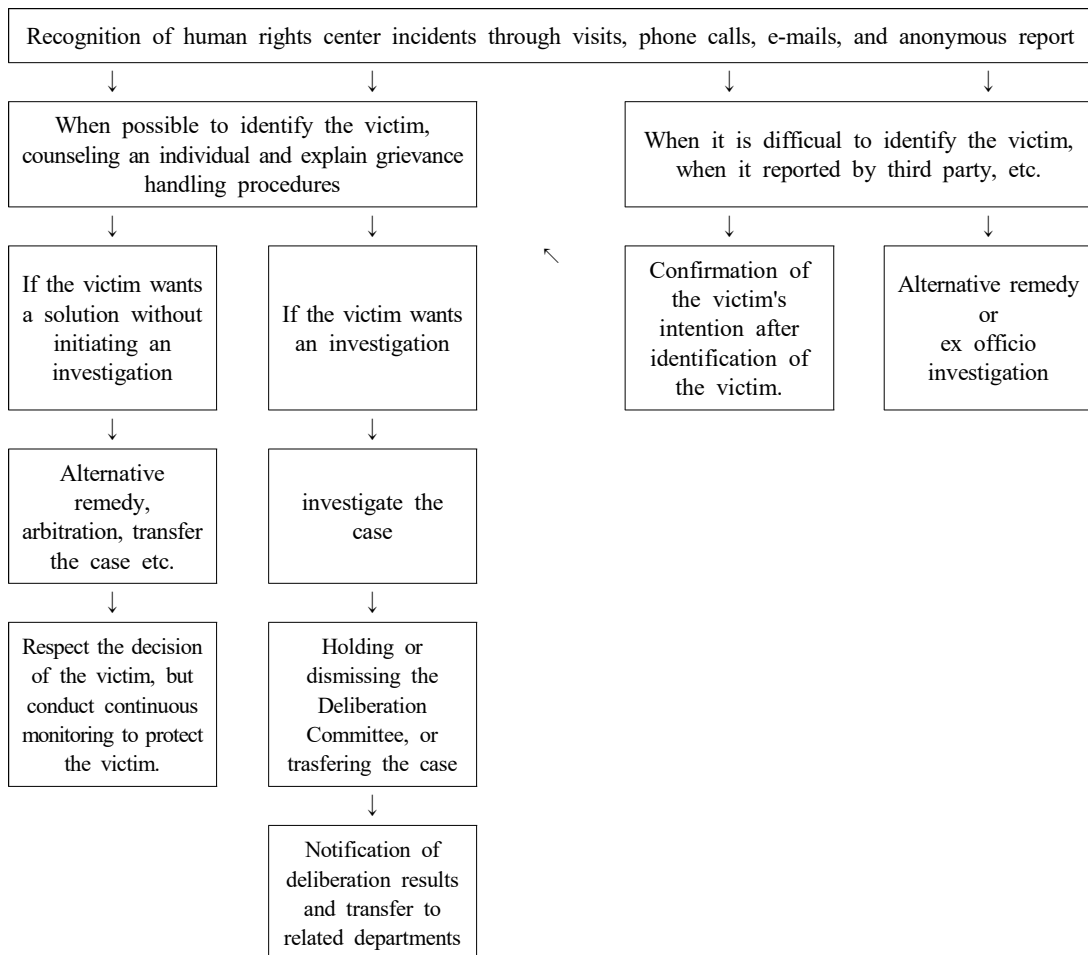

- Collect evidence of the victimization.

- Seek help from friends, colleagues, or supervisors

☐ ***Case Reporting and Processing***

Sexual violence cases are resolved according to the following procedure within the school.

- Case Reporting and Processing

□ PF(Public Finance and Social Policy)

Concentration Overview

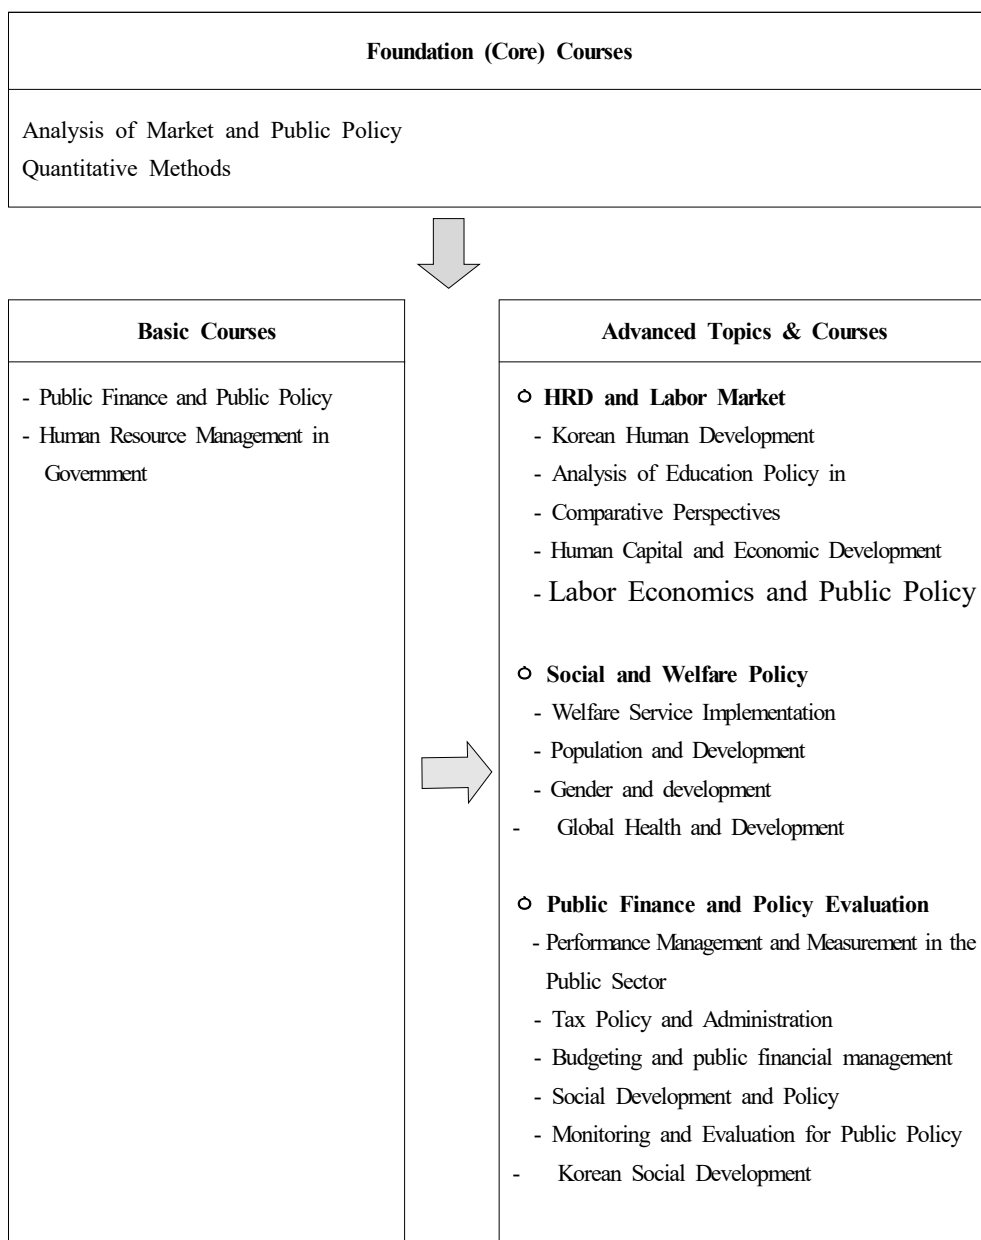

Learning Goals:

The market is an indispensable mechanism for efficient resource allocation and long-term growth. The workings of the market, however, are often accompanied by extreme poverty, externalities, information asymmetry, and coordination failures, thereby entrapping vulnerable individuals and communities at a lower end of possible equilibria. Key Issues:

On the basis of economics and other social science disciplines, this concentration explores ways to tackle these challenges through taxes, government expenditures, and prudent regulations.
